

Work happy on the go with greater unplugged performance and longer battery life using an HP EliteBook 645 G10 Notebook PC powered by an AMD Ryzen™ 7 7730U processor

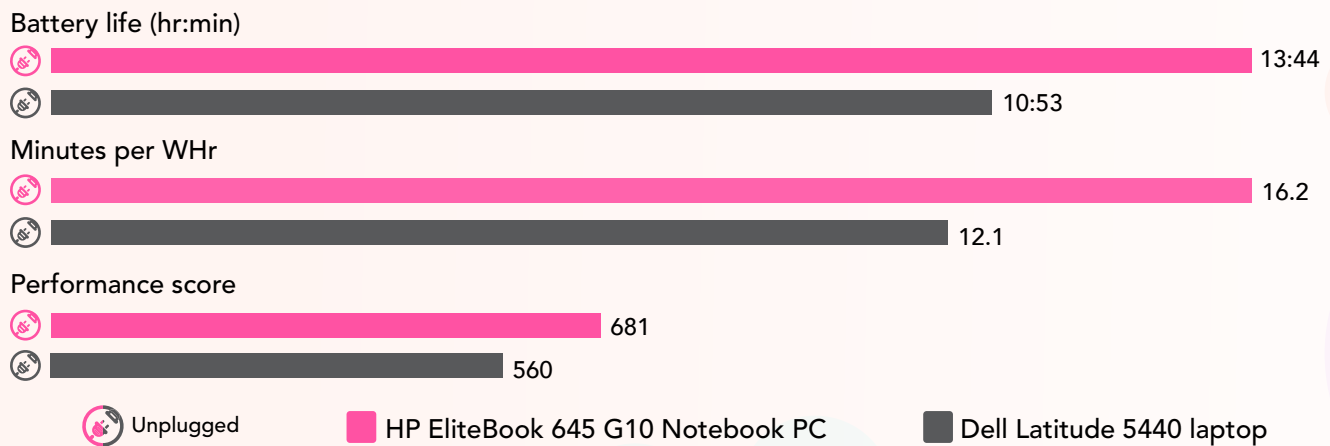

vs. a Dell Latitude 5440 laptop with an Intel Core i7-1355U processor

PassMark PerformanceTest
Performance score | Higher is better

Plugged-in vs. unplugged performance
Only a **10.4%** performance drop with the EliteBook 645 G10 vs. a 29.1% drop with the Latitude 5440 laptop

MobileMark 2018 "best power efficiency" mode battery life testing (205 nits) benchmark
Higher is better

Work where you want with longer battery life, better system efficiency, and better performance

Stay comfortable with a cooler and quieter laptop based on hot-spot temp and acoustic readings under load
