

Choose your Verint video management system with confidence thanks to validation from Dell EMC

Pair Intel processor-powered Dell EMC PowerEdge R740xd2 servers with a video management system validated by Dell EMC

About the Dell EMC™ PowerEdge™ R740xd2

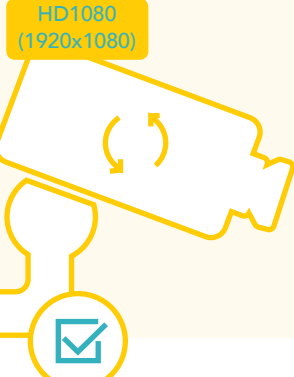

The enterprise-grade PowerEdge R740xd2 server offers the potential for high storage capacity in a compact 2U of rack space.

Dell EMC PowerEdge R740xd2 with Verint EdgeVMS™

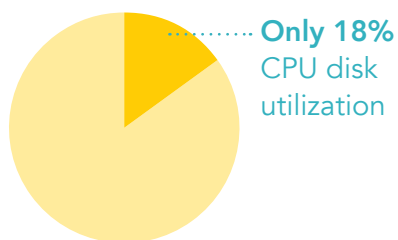

97 cameras on the Dell EMC PowerEdge R740xd2 with Verint EdgeVMS met stringent verification standards in two scenarios:

HD1080 (1920x1080)

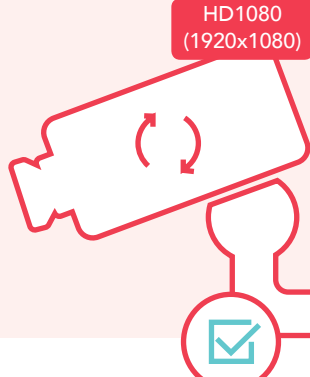

Efficient recording under normal load

119 MB/s average disk throughput

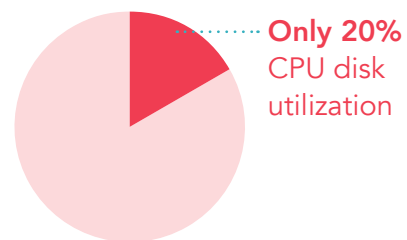

HD1080 (1920x1080)

Reliable performance during simulated disk failure and rebuild

119 MB/s average disk throughput

The Dell EMC Surveillance Validation Lab

When your business implements a VMS validated by Dell EMC, you do so knowing that Dell EMC has already tested and approved it for use. Learn more about Dell EMC validation here: <https://www.dell.com/en-us/solutions/surveillance-security.htm>.
